Address: Torrevieja, Alicante, 03180

We are very happy to market this stunning semidetached villa in the lovely residential of Jardin del Mar, Torrevieja.

Jardin del Mar is conveniently located, the habaneras shopping centre as well as the main Carrefour in town is based within five minutes walking distance of the property, there is also a bus stand with buses to the centre of the town. It is needless to say that there are plenty of restaurants or bars to choose from. The beaches of La Mata, Los Locos and el Cura can also be reached in five minutes by car.

The property is an end-terrace semidetached villa. It features a lovely corner plot with plenty of privacy and BBQ area, two double bedrooms with open plan kitchen and bathroom. The property is based on one level. It also benefits of a fantastic private sun terrace which can be built a third bedroom or just use it for storage or sun bathing!

The residential is well maintained, it has lovely green areas and a fantastic swimming pool with natural grass.

It is the ideal property for anybody looking to move into town or just use it as a holiday home. The location is stunning since you would not need the car at all on your holidays unless you would want to go to the beach, in that case you could either take the bus or just drive down in two minutes. Highly recommended!
